Hungkar Dorje Rinpoche is the current Abbot of Thubten Chokor Ling Monastery in Golok, Tibet; he was born to a nomadic family full of many renowned masters and yogis such as his father Orgyen Kusum Lingpa etc. Rinpoche was recognized early in his life by many great Buddhist masters as the reincarnation from many accomplished practitioners which was recorded throughout thousand years of Vajrayana history from King Trisong Deutsen of Tibet, mind emanation of Jigme Lingpa, the promulgator of Longchen Nyingthig, etc... to the most recent life as the glorious Mahasiddha Do Khyentse Yeshe Dorje. His long life prayer was composed by His Holiness Dalai Lama in Dharamsala, India in 1995 with praises of his qualities as the perfect realized Vidyadhara.

Rinpoche personally picked the topic with the purpose to help the participants to purify negativity and karma which are the root and cause of suffering and obstacles to our life on all faces; plus to bring positive energy to benefit the world and all sentient beings.
